Image SEO Learn more | Warning | 0/1 | Low importance

12 images have no alt attribute. The content of alt attributes is taken into account by search engines when analyzing page content.

Performance Learn more | Warning | 1/2 | Low importance

The page response time of **0,52** seconds is longer than the recommended limit of 0.4 seconds. A high response time unnecessarily slows down search engine crawling and results in bad user experience as well.

The file size of the HTML document is fine. (**72** kB)

Recommendations

1. Add a clear H1 heading and structured H2 tags to improve keyword clarity and page hierarchy.
2. Rewrite the title tag to include primary keywords such as “Boat Tours” and “Kayak Rentals.”
3. Create a compelling 150–160 character meta description to improve click-through rates.
4. Expand homepage content to at least 800–1,000 words to increase topical authority.
5. Fix the 9 broken links to improve crawlability and user experience.
6. Add descriptive alt text to all images to improve accessibility and image search visibility.
7. Reduce duplicate content and increase the percentage of unique content.
8. Optimize image sizes to reduce the overall page size and improve performance.

Priority 1 issues include adding an H1 heading, optimizing the title and meta description, and expanding content, followed by fixing broken links and alt text (Priority 2), and finally improving page speed (Priority 3).

Alignment with Business Goals : Rideau Tours relies on local tourism visibility and seasonal bookings. Optimizing keywords such as “kayak rentals Ottawa” and improving content quality will increase organic traffic and attract high-intent users. Strengthening multimedia and technical performance will improve engagement and support higher booking conversions.
